Factoring

Putting it all together

When we are asked to factor an expression, we can approach the problem by looking for several key ideas.

Apr 14-11:07 AM

Factor the following completely:

$$15x^3 - 45x^2$$

Apr 14-11:49 AM

Factor the following completely:

$$9x^2 - 18x + 9$$

Apr 14-11:49 AM

Factor the following completely:

$$12x^2 - 27$$

Apr 14-11:49 AM

Factor the following completely:

$$4.5x^2 + 18x + 13.5$$
